Rules.

- The bouncing is allowed only for 3 times at a go.

- Fist ball is played on a pitch of 20 - 50 metres
- The match is played in 3 sets and the first team to 20 wins.

Toe Wrestling

Toe wrestling is now known as a popular activity for children. The world toe wrestling competition first started at a pub in Derbyshire, UK in 1976. Locals thought it would be good to hold a toe wrestling comp where individuals lock toes together and force their opponent's foot to the ground.

Rules.

Toe wrestling is basically the same as arm wrestling.

All players must take off their socks and shoes.

Players must link toes and each player's feet must touch flat on the other person's feet.

One two three four I declare a thumb war.

Pinning is accomplished by one foot on the same foot of your opponent.

His popular songs include, One Time, Baby, Never Let You Go, One Less Lonely Girl. He went on tour around the world and came down to Australia for 3 days and performed on Sunrise Live singing three of his hit singles. He also had to cancel concerts due to his popularity and lack of crowd control.

Jason Derulo!

Has been on fire with all of his songs. Songs like Riding Solo, Watcha Say, In My Head, and Queen of hearts + Love Hangover. All of his songs are popular because so many people love them and just want more and so many people think that he's a hottie!

In the 7th instalment in the Settlers series with a brand new 3D Engine makes you feel like you're in medieval town. Stunning, amassing controls, great graphics. Be careful of the resource management as it can make the game difficult to play at times.

8/10

Wii

The game play graphics is brilliant apart from player close-ups. Fun to play you can look forward to enjoying a top notch sports game. The best Rugby League game yet. If you have a Nintendo 64 controller then it will make the game a much more enjoyable experience.

6/10

Taking off where God of War 2 left off Krotos is climbing Mount Olympus with the titans to exact revenge on Zeus after he tried trying to drain Krotos' powers. "Sleek controls, awesome graphics and heart-pounding game play will make you wish the story never ends."

9.5/10

In a post apocalyptic scene of the Russian capital Moscow the residents have retreated in the metro system after a nuclear war left modern Moscow in ruins. As you run through the Metro stations (now similar to villages with their own rules and restrictions) you find out more of what happened above on the surface.

8/10

The way you can play this game is great but a little kiddie for a PG rated game. As you can fly dragons, feed them take care of them, but soon you will get board of this pretty quickly as it will become a chore than something fun to do.
